# Purpose of Zoning By-law Amendment Application

Complete this section if you are applying for a Zoning By-law Amendment.

## Describe the nature and extent of the proposed rezoning.

It is also our understanding that the ZBA seeks to apply a Site-specific Exception to the northern portion of the subject property zoned Agricultural 'A' to address multiple deficiencies that require zoning relief, including:

- Section 4.2.1.1 (f) - An ARU can have a maximum of two (2) bedrooms. ***The proposal seeks to permit three (3) bedrooms.***
- Section 4.2.1.1 (l) - An ARU in a detached accessory building is not permitted to have a basement or other habitable living space below grade. ***The proposal seeks to permit a basement level.***
- Section 4.2.1.1 (o)(iii) - An ARU within a detached accessory building must be located within 40 metres of the building containing the primary dwelling unit. ***The proposal seeks to permit an ARU exceeding 40 metres from the primary dwelling.***
- Section 4.2.1.4 (b) - The maximum gross floor area of the ARU within a detached accessory building shall not exceed 50% of the gross floor of the primary dwelling unit, but in no case can be larger than 80 sq.m. ***The proposal seeks to permit an ARU exceeding 80 sq.m.***
- Section 5.5.2 (f) - A second driveway accessing a lot in the Countryside Zone may be permitted provided the lot has a minimum of 0.4 hectares. ***The proposal seeks to permit a fourth driveway which provides access to the proposed primary dwelling.***

## Why is this rezoning being requested?

The applicant is seeking to recognize the existing condition of their property that currently contains two separate dwellings: the original dwelling for the property and a newly constructed detached dwelling unit. The applicant has requested to partially rezone the subject property from Agricultural Zone 'A' to Site-Specific Agricultural Zone 'A(159)' to recognize the newly constructed dwelling as the primary dwelling unit and to permit the original dwelling to remain as an ARU. To permit the ARU, multiple variations to the standards within the Municipality of Port Hope Zoning By-law, as amended, are also required.

It is also noted that the County directed that a new septic system be constructed to service the Primary Dwelling and be capable of expansion to service the existing dwelling (ARU).

# Previous Land Use of the Subject Land

If you answer 'Yes' to any of the questions below, you are required to include a previous use inventory with the application submission, showing all former uses of the subject land and/or adjacent land.

**What was the previous use of the subject land?**
