Project	2012 Auto Extrication Ram		
Department	Fire Services		
Version	04 Approved by Council	Year	2022

Description

Project Description

Portable battery powered auto extrication ram for station 3.

Project Justification

The hydraulic rams spread heavy components to create more space when extricating entrapped patients. Presently stations 2 already has a battery powered ram, and this addition would complete station 3 for battery powered extrication tools. Purchasing the battery powered tools provides versatility allows for additional uses outside auto extrication as well. It can also be used for forcible entry into structures as well as shoring/lifting in collapse scenarios.

Budget
